ENERGY STAR Background Information

ENERGY STAR is a broad, voluntary partnership designed to promote products, buildings, and homes that use less energy without sacrificing quality. **ENERGY STAR for Homes** promotes energy-efficient homes that can improve builder profitability, improve home quality and homeowner comfort, lower energy demand, and reduce air pollution. ENERGY STAR qualified homes are third party verified to be at least 30% more energy efficient than homes built to the national Model Energy Code or 15% more efficient than state energy code, whichever is more rigorous. These savings are based on heating, cooling, and hot water energy use and typically achieved through a combination of: envelope upgrades, controlled air infiltration, upgraded heating and air conditioning systems, and upgraded water-heating equipment. EPA encourages partners to equip ENERGY STAR qualified homes with energy-efficient lighting and appliances and with features that will improve indoor air quality to protect the health of the occupants.

ENERGY STAR's Commitments to Partners

1. Increase awareness of the ENERGY STAR label by distributing key messages on the benefits of ENERGY STAR qualified homes and homes-related products.
2. Provide (via the ENERGY STAR Web site, Hotline, e-mail or other means) current ENERGY STAR news, information, and reference documents.
3. Provide ENERGY STAR Partners with public recognition through the online ENERGY STAR partner locator tool, special awards, and other media for their involvement in ENERGY STAR and role in protecting the environment.
4. Respond expeditiously to any Partner requests for information or clarification on ENERGY STAR policies.

General Commitments for ENERGY STAR Partners

1. Use the Partnership and the ENERGY STAR label to promote energy efficiency as an easy and desirable option for new homebuyers to prevent pollution, protect the environment, and save on energy bills.

4. Qualify at least one ENERGY STAR labeled home within any ongoing 12-month period. Partners not fulfilling this requirement will be deemed 'inactive,' thereby forfeiting all rights to the ENERGY STAR name and logo, their listing on the online ENERGY STAR partner locator tool, and any inclusion in ENERGY STAR promotional materials.
5. Affix an ENERGY STAR label to all homes that are independently verified to meet the ENERGY STAR performance guidelines.
6. BUILDER PARTNERS: Clearly inform homebuyers when their new homes have qualified for the ENERGY STAR label and be able to describe the features and benefits of these ENERGY STAR labeled homes.
7. BUILDER PARTNERS: Provide a home energy rating report or relevant Builder Option Package for any labeled home upon EPA's request.
8. ACCREDITED HERS or BOP PROVIDERS and CERTIFIED MANUFACTURED HOME PLANTS: Submit quarterly reports to ENERGY STAR specifying the number of homes verified as meeting ENERGY STAR performance guidelines.
